Bachelor's in Commerce & Computer Sciences.

Expected

Recent Projects:

1. **Obsession (Full Stack Web App)** – A habit-building app with the world's first dynamic alarm, and Pomodoro built-in. Users can edit their tasks and set alarms. The app's algorithm tweaks the timers according to their Flow moods and REM sleep patterns.

2. **Happy Notes (MERN stack Web App)** – Users can log in to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

3. **A piece of Korutla (Full Stack Web App)** – Users post pictures of their properties, and log in to save favorites. The app's algorithm helps people find ideal properties in less than 5 minutes, whereas traditionally it takes around a week! It is presently one of the city's premier real estate agents, valued at about $58,000.

Other Projects: Jack's Pot Casino Virtual Slot Machine, Los Angeles. StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for a Partnered Twitch streamer of an audience averaging 100k viewers, and many more.
